Professional Summary

BCA graduate with hands-on experience in AWS Cloud, Linux, Docker, Kubernetes, Jenkins, Terraform, Ansible, and infrastructure monitoring. Skilled in deploying cloud infrastructure, automating CI/CD pipelines, container orchestration, and troubleshooting Linux and networking issues. Seeking an entry-level Cloud Infrastructure or DevOps Engineer role to apply and expand my technical skills

Technical Skills

Cloud: AWS (EC2, VPC, IAM, EBS, Route Tables, Security Groups, NAT Gateway, Internet Gateway)

Containerization: Docker

Container Orchestration: Kubernetes

CI/CD: Jenkins

Infrastructure as Code: Terraform

Configuration Management: Ansible

Monitoring: Prometheus, Grafana, AWS CloudWatch

Version Control: Git, GitHub

Operating Systems: Linux (Ubuntu), Windows

Networking: TCP/IP, DNS, HTTP/HTTPS, SSH, Load Balancer, Subnetting

Web Server: Nginx

Scripting: Bash

Projects

Kubernetes Cluster Deployment on AWS

- Designed VPC networking using public/private subnets, route tables, and security groups.
- Provisioned EC2 instances and built a multi-node Kubernetes cluster using kubectl with Flannel CNI.
- Deployed containerized applications and resolved networking and node readiness issues.

Linux Server Monitoring using Prometheus, Grafana & Node Exporter

- Installed and configured Prometheus and Node Exporter to collect Linux server metrics.
- Created Grafana dashboards to visualize CPU, memory, disk, and network utilization.
- Configured alert rules to monitor system performance and identify resource issues.
- Performed Linux log analysis and monitored server health for proactive troubleshooting.
- Gained hands-on experience in infrastructure monitoring and observability.

Cloud Infrastructure & Web Server Deployment on AWS

- Hosted portfolio website on EC2 with Nginx as reverse proxy server.
- Configured custom domain using Route 53 and implemented SSL/TLS certificates for HTTPS.
- Managed Linux server configuration and performed troubleshooting.

Education

Bachelor of Computer Applications (BCA)

Koshys Institute of Management Studies, Bengaluru

Graduation: 2025

CGPA: 7.3/10

Relevant Coursework

• Cloud Computing • Operating Systems • Computer Networks • Linux Administration • Database Management Systems

Professional Training

AWS & DevOps Training – Trishana Technologies, Bengaluru

- Completed comprehensive hands-on training in AWS, Linux, Docker, Kubernetes, Jenkins, Terraform, Ansible, Git, GitHub, and Nginx.
- Gained practical experience in cloud infrastructure deployment, CI/CD automation, and Kubernetes-based application deployment.

Certifications

- AWS & DevOps Training – Trishana Technologies

Soft Skills

• Communication • Analytical Thinking • Incident Troubleshooting • Problem Solving • Team Collaboration • Adaptability • Quick Learner • Time Management
